Back-End: .NET Core Web API, Microsoft SQL Server, Node JS, Express.js, MongoDB
Developer Tools: Jira, Git, Postman, Netlify, Vercel, Figma, Jam, GitHub Desktop
Other Skills: Agile Project Management, Scrum, Excel, Business Analysis, Customer Acquisition

Experience/Projects

Accel Limited   **Sep 2022 – Present**
Software Engineer   *Ernakulam, India*
- Strategized and analyzed the design and implementation of a nationwide **ERP platform**, focusing on **scalability**, **performance**, and **user-centric design**.
- Advocated for **Agile methodologies**, effectively communicating with stakeholders to align business and technical requirements. Served as **Scrum Master**, facilitating **daily stand-ups**, **sprint planning**, and **retrospectives** to enhance team collaboration and productivity
- Leveraged **HTML**, **CSS**, **JavaScript**, **TypeScript**, **React**, **Redux Toolkit**, and **Bootstrap** to build a **responsive**, user-friendly interface.
- Integrated **.NET Core Web API** with an **MSSQL** database, ensuring efficient **data management** and processing
- Developed a secure **role-based authorization system**, controlling access to various application modules.
- Implemented **Change Data Capture** (CDC) on the MSSQL database for **tracking CRUD operations**, and set up audit logs for **accountability**.

Luminar Technolab   **Jan 2022 – July 2022**
MEA(R)N Developer - Internship   *Calicut, Kerala*
- Actively participated in **code reviews**, maintaining **high coding standards** and providing constructive feedback
- Designed and developed a secure **social media application** using the **MERN** (MongoDB, Express.js, React, Node.js).
- Built an **online banking application** with secure authentication, account management, transaction tracking, and real-time fund transfer features using React and RESTful APIs.

Personal Projects

Bank Application   **Jan 2022 – July 2022**
- Developed a **fullstack bank application** built using Angular, Node.js, Express.js and MongoDB in **MVC architecture**.
- Innovated real-time communication using Socket.io for instant collaboration.

UI Based Application   **Oct 2022 – Dec 2022**
- Developed responsive React-based applications, including a **Restaurant List**, Netflix clone, Jungle Park showcase, and **Weather Check** app, featuring real-time data, dynamic UI components.

Education

Bachelor of Technology (Mahatma Gandhi University)   **2018 – 2021**
Mar Elias College Kottappady   *Ernakulam,Kerala*
